LEADERSHIP AND POLITICAL ENGAGEMENT PROGRAM

INSTILLING FOUNDATIONAL CHRISTIAN PRINCIPLES TO EFFECTIVELY ENGAGE THE POLITICAL PROCESS

PURPOSE

At this time in our history, the American consciousness is characterized by inner pessimism and increasing apathy. Citizens have lost all confidence in the political process and feel powerless to effect change, parents doubt that their children will have a better life than they, business leaders decry the quality of education as compared with other countries, and politicians lack the will to take responsibility.

In a society that has become ideologically polarized and where partisanship often supersedes sound policy and future-oriented legislation, a new generation of political and community leaders needs to be prepared who have the desire for renewed political engagement, the capacity to interact with a broad scope of ideas, the ability to listen respectfully to others with divergent opinions, the fortitude to make difficult decisions, and the vision to plan for future generations.

To this end, the Corban University leadership and political engagement program builds on its strengths in social sciences and its location in the capital of Oregon, Salem. The core strength of this program is its commitment to educating students to embody the biblical injunction to do justice, love kindness and walk humbly before God and men. From this strength students will learn to build bridges in communities and among various political positions, enact future-oriented change, and lead

<p>Key Aspects</p> <p>The program's key aspects are a Christian worldview; its focus on compassionate leadership; its business-oriented approach; a philosophy of personal responsibility, limited government, civic engagement and bridge-building and social innovation. Internships are an important part of the program.</p>	<p>Curriculum</p> <p>The program's curriculum centers around a foundational Christian worldview, supporting economics/business, government, social marketing, leadership/internship and political history.</p>

Will you join these and other dedicated friends in an initiative to further the education of exceptional Christian youth?

The 5-Year Economy – This is the name given to the five-year plan that Corban has developed to meet the challenges of the future. The goal of the 5-Year Economy is to increase enrollment, expand facilities, and enhance the academic and spiritual life of the university. The plan includes the construction of a new residence hall, the expansion of the library, and the purchase of new equipment for the science and engineering departments. The 5-Year Economy is a significant investment in the future of Corban University.

Do you want to make a difference in the lives of students? If so, consider becoming a monthly donor. Your monthly gift will help to ensure that Corban can continue to provide a quality education to students from all walks of life. Your monthly gift will also help to support the ministry of Corban University.

Volunteer Board Council has identified three ways we can accomplish this goal:

- **Monthly giving** – This is the most effective way to support Corban. It allows us to plan for the future and ensures that we have the resources needed to meet the challenges of the 5-Year Economy.
- **Annual giving** – This is a great way to support Corban. It allows us to plan for the future and ensures that we have the resources needed to meet the challenges of the 5-Year Economy.
- **One-time gifts** – This is a great way to support Corban. It allows us to plan for the future and ensures that we have the resources needed to meet the challenges of the 5-Year Economy.

1. Do you have a naturally dark/sad nature?
2. Do you consider yourself to be creative? Can you easily see more than one way to solve almost any problem?
3. Do you respond positively to a challenge? Do you like being given direction and/or criticism on your work?
4. Do you feel complete through achievement? Do you derive satisfaction from doing so?
5. Can you handle all your pressures and with ease?
6. Do you embrace new technologies, techniques and ideas?
7. Have you spoken to more than one working designer about their design process?

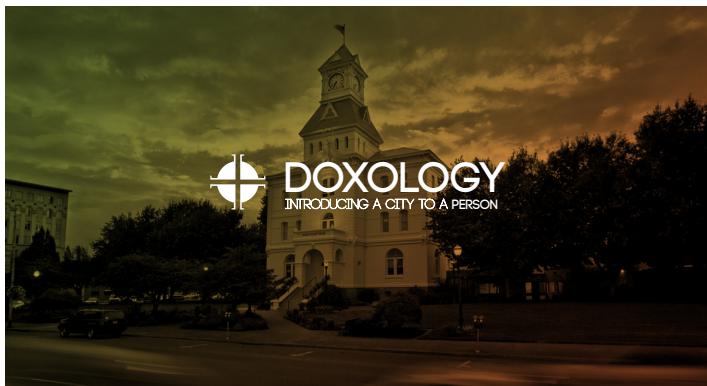

Note that we focus design is a viable choice for you. I want to remind you that you have choices. The decision where to study is a personal one. Colleges and their programs/departments have different philosophies just like individuals do. Some are interested in helping students and others are more interested in motivating to work as a team to achieve a common goal. Others may be aggressive less concerned with individual student success.

As a new student of design, it is important to do your research. This includes research as much as possible about program, faculty, students and type / quality of work produced as possible. Design is a good thing. Conversations with faculty and students, undergraduate as well as graduate, are important. And look carefully and critically at the work being produced. Make your own judgment one and the experience will be positive.

WE GATHER AND WE SEND

We are Doxology.
In one sense we are one church. But more than that, we are a network of smaller churches called tribes that meet all throughout our city, all throughout the week.

SUNDAYS AT 10:30 AM. AT THE MAJESTIC THEATRE AND TRIBES MEET AT VARIOUS TIMES AND LOCATIONS

CORE COMMITMENTS

COMMUNION
Loving God as worshippers of Jesus

COMMUNITY
Sharing life as the family of God

COMPASSION
Caring for the world as servants of all

OUR VISION

Our vision is that on a regular basis every person in Corvallis would get to experience Christ's love in ways they can understand.

Rather than trying to get the people of Corvallis to come to church we're sending the church to the people of Corvallis to love God, love others and make disciples.

Our primary way of carrying this out is through our Tribes. Tribes are communities who are committed to living out our mission together. Each of our tribes is formed around a shared missional focus – a people or place they are willing to be sent by God to grow as a Christ-follower and embody the gospel as disciples of Jesus.
